Medical Micropigmentation

Areola Reconstruction

A treatment to recreate the illusion of a 3D nipple and areola following surgery or to disguise inverted nipples or darken areolae.

We offer a 50% discount off 3D Areola treatments and breast scar camouflage to breast cancer patients. Please see Terms of Service for conditions.

Single Areola reconstruction	Includes One Colour Retouch treatment appointment within Two Months of initial treatment.	£395.00	Average time 2 hours per breast
Double Areola reconstruction	Includes One Colour Retouch treatment appointment within Two Months of initial treatment.	£700	Average time 2 hours per breast
Areola colour boost	Shape alteration, colour change or darkening after the initial treatment package	£200 per breast (per appointment)	

Scar Camouflage / Repigmentation of stable vitiligo

For light coloured scars at least 1 year old and that are flat and not raised.
For trauma and surgical scars, areola scars, burns, stretch marks and vitiligo.
Vitiligo must have been stable for at least 1 year with no spread of non-pigmented areas.

For BEST RESULTS, clients MUST complete at least TWO sessions of scar camouflage.

Therefore, only multiple session treatment plans are provided.

If Jo thinks your scar would benefit from an additional single treatment, then this will be priced on an individual basis and only after you have completed your treatment plan.

Scar Camouflage Consultation	Redeemable against first treatment **Highly advised	£40	Average time 45 mins
Scar Camouflage Test Patch	To test colour, sensitivity and vitiligo reactivity potential (Not redeemable against treatment)	£50	Average time 45 mins

Please note-£75 deposit per treatment within your chosen package, must be paid for at time of booking the first treatment. i.e. £150 deposit (for two treatments) to be paid at time of booking the first treatment.

Package balance must be paid in total, at the first treatment.

Treatments should be 6-8 weeks apart.

Scalp Pigmentation

Creates the illusion of tiny hairs as they grow through the scalp, or creates a shading effect on the scalp to disguise thinning or very light coloured hair

Treatment plan price agreed at consultation will include 3 appointments

<p>Scalp Pigmentation for thinning and receding hairline</p>	<p>Creates the illusion of tiny hairs as they grow through the scalp, or creates a shading effect on the scalp to disguise thinning or very light coloured hair</p> <p>Treatment plan price agreed at consultation will include 3 appointments</p>	<p>From £250 to £3000 depending on the amount of hair loss</p>	<p>3-4 hours per session</p>
--	--	--	------------------------------

Please note- Multiple visits or colour refreshes may be necessary as everyone's skin responds to the pigment differently. Jo can advise on how many treatments may be needed at the consultation stage but it is usual to require 3-4 appointments for Medical Tattooing due to the natural tones of the pigments.

Prices are subject to change without written notice.
